

User Stories

New User:

As a user that has not yet made an account, I can register an account with: email, password, name)

As a user that is not yet signed in I can click sign in and use my valid credentials.

As a user of the system, I can update my profile to change my display name.

As a user I can change my password given that I still have my old password and will prevent new passwords from being the same as previous passwords.

As a user I will also be able to change my email address for my account and verify it through a confirmation email.

Admin User:

As an admin I am able to access a list of users with filters such as active/role (admin only feature).

As an admin I can expect to have the ability to activate or deactivate user accounts by soft disabling login (exclusive feature).

As an admin I can change user roles either promoting or demoting.

As an admin I am able to reset user passwords.
